## Quick Reference Guide

2020 September 16  
Revision: 6.2.1.5

# Precautions

To reduce the risk of injury or equipment damage, observe the following precautions when you install the Cognex product:

- This device requires the use of an LPS or NEC class 2 power supply (non-PoE device) or the use of a PoE Class 1 (PoE device).
- Do not connect or disconnect this device from the I/O module or 15-pin USB adapter cable when the I/O module or adapter cable is connected to a PC.
- Route cables and wires away from high-current wiring or high-voltage power sources to reduce the risk of damage or malfunction from the following causes: over-voltage, line noise, electrostatic discharge (ESD), power surges, or other irregularities in the power supply.
- Changes or modifications not expressly approved by the party responsible for regulatory compliance could void the user's authority to operate the equipment.
- Ensure that the cable bend radius begins at least six inches from the connector. Cable shielding can be degraded or cables can be damaged or wear out faster if a service loop or bend radius is tighter than 10X the cable diameter.
- This device should be used in accordance with the instructions in this manual.
- All specifications are for reference purposes only and can change without notice.

# Product Overview

1	Illumination LEDs
2	LED aimers
3-4*	Mounting holes (M3 x 3.5mm)
5	Trigger button
6	Power indicator
7	Train status indicator
8	Good/bad read indicator
9	Network status indicator
10	Error indicator
11	Tune button
12	Power, I/O and RS-232 connector
13	Ethernet connector

**Note:** \*Use only one set of mounting holes (either 3 OR 4) for mounting.

**Note:** The five status LEDs together also function as a peak meter using an orange light.

## Connecting the Reader

Perform the following steps:

1. Mount the reader.
2. Connect the Ethernet cable (CCB-84901-2001-05) either to a computer or a switch.
3. Connect the breakout cable (CCBL-05-01).

For information on the pinout and wire colors, see section *Connections, Optics and Lighting* in the *DataMan 260 Reference Manual*.

## Installation

Installation procedures and specifications are presented in detail in the *DataMan® 260 Reference Manual*, which is installed with the DataMan Setup Tool. From the Windows Start menu, select the following to access the manual: *All Programs > Cognex > DataMan Software vx.x.x > Documentation*.

### Note:

- Cables are sold separately.
- If a standard component is missing or damaged, immediately contact your Cognex Authorized Service Provider (ASP) or Cognex Technical Support.

**CAUTION:** All cable connectors are keyed to fit the connectors on the reader. Do not force the connections or damage may occur.

---

## Mounting

Mounting the DataMan 260 at a slight angle (15°) can reduce reflections and improve reader performance.

Use the set of mounting holes on the rear part to mount the DataMan reader.

## Connect the Ethernet Cable

1. Connect the Ethernet cable's M12 connector to the reader ENET connector.
2. Connect the Ethernet cable's RJ-45 connector to a switch/router or PC, as applicable.

## Connect the Breakout Cable

**Note:** You can clip unused wires short or use a tie made of non-conductive material to tie them back.

---

1. Verify that the 24VDC power supply is unplugged and not receiving power.
2. Attach the Breakout cable's +24VDC and GROUND to the corresponding terminals on the power supply.

**CAUTION:** Never connect voltages other than 24VDC. Always observe the polarity shown.

---

3. Attach the Breakout cable's M12 connector to the DataMan 260 reader's 24VDC connector.
4. Restore power to the 24VDC power supply and turn it on if necessary.

## Install Software and Documentation and Connect the Reader

Follow the steps below to connect your reader to power and network:

1. Connect the I/O+RS232+24V cable to your reader.
2. For a network connection, connect your reader through an Ethernet cable to your network.
3. Connect the cable to a 24V power supply.

To configure a DataMan 260 reader, the DataMan Setup Tool software must be installed on a networked PC. The DataMan Setup Tool is available from the DataMan support site: <http://www.cognex.com/support/dataman>.

1. After installing the software, connect the DataMan 260 Series reader to your PC.
2. Launch the DataMan Setup Tool and click **Refresh**.
3. Select your DataMan 260 reader from the list and click **Connect**.

# Regulations/Conformity

The DataMan 260 has Regulatory Models 1AA5, 1ABD, 1AA0, 1ABF and meets or exceeds the requirements of all applicable standards organizations for safe operation. However, as with any electrical equipment, the best way to ensure safe operation is to operate them according to the agency guidelines that follow. Please read these guidelines carefully before using your device.

**Note:** For the most current CE declaration and regulatory conformity information, see the Cognex support site: [cognex.com/support](http://cognex.com/support).

Safety and Regulatory	
Manufacturer	Cognex Corporation One Vision Drive Natick, MA 01760 USA
USA	FCC 47 CFR Part 15 Subpart B, Class A This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference; and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

## For European Community Users

Cognex complies with Directive 2012/19/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 4 July 2012 on waste electrical and electronic equipment (WEEE).

This product has required the extraction and use of natural resources for its production. It may contain hazardous substances that could impact health and the environment, if not properly disposed.

In order to avoid the dissemination of those substances in our environment and to diminish the pressure on the natural resources, we encourage you to use the appropriate take-back systems for product disposal. Those systems will reuse or recycle most of the materials of the product you are disposing in a sound way.

The crossed out wheeled bin symbol informs you that the product should not be disposed of along with municipal waste and invites you to use the appropriate separate take-back systems for product disposal.

If you need more information on the collection, reuse, and recycling systems, please contact your local or regional waste administration.

You may also contact your supplier for more information on the environmental performance of this product.
